Tech Yuva Buildathon

Judging Criteria & Evaluation Framework

Total Marks: 50

No.	Judging Criteria	Marks	Evaluation Points
1	**Innovation & Creativity**	**10 Marks**	• Uniqueness and originality of the idea. • Creative approach to solving the problem. • Differentiation from existing solutions.
2	**Technical Implementation**	**15 Marks**	• Functionality of the working prototype. • Appropriate use of technologies and tools. • Code quality and technical execution. • Successful implementation of core features.
3	**Problem-Solving & Relevance**	**10 Marks**	• Understanding of the problem statement. • Effectiveness of the proposed solution. • Relevance to the target users and their needs.
4	**Presentation & Demonstration**	**10 Marks**	• Clarity of explanation and communication. • Quality of the live demonstration. • Confidence and teamwork during the presentation. • Ability to answer judges' questions effectively.
5	**Feasibility, Scalability & Impact**	**5 Marks**	• Practicality and feasibility of the solution. • Potential for future development and scalability. • Expected real-world impact.

Judging Priority

Judges should evaluate each team fairly based on the above criteria, with priority given to **functionality, technical execution, and the effectiveness of the proposed solution.**

Evaluation Summary

Criterion	Weight
Innovation & Creativity	10 / 50
Technical Implementation	15 / 50
Problem-Solving & Relevance	10 / 50
Presentation & Demonstration	10 / 50
Feasibility, Scalability & Impact	5 / 50
TOTAL	**50 / 50**
